

Rolleston Quarry

Community Liaison Group Meeting

Held at the Rolleston Quarry - Wards Road

Thursday 14 August 2014

Present: Jonny Francis (Road Metals), Murray Francis (Road Metals), Wendy Gallagher (SDC), Melissa Shearer (ECan), Simon Lock, Mark Alexander, Clayton Fairbairn, Martin Crow.

Apologies: None.

Meeting commenced at 7:30 pm.

Minutes from the previous meeting were confirmed as true and correct.

Jonny confirmed that the planting out of the bund was again scheduled to happen over the next two weeks.

An update from the council officers confirmed there had been no issues since the last meeting.

Jonny gave the group an update on the quarry operations. The pit was still at 4 metres below existing ground level and the crushing plant had been shifted further away from the road as more room had been created. The flag light for the entranceway had been designed and this work would happen as soon.

Road Metals were in the process of completing an application for a variation to consent conditions related to traffic number, extraction volumes and hours of operation. This application would be publicly notified and there was discussion around whether the residents would prefer an application for a 5 year term or if this wouldn't make any difference to the level of opposition.

It was proposed that the next meeting would be held on site at the Rolleston Quarry on Wards Rd on September 25th at 7:30 pm.

Meeting declared closed at 8:30 pm.
