

Rolleston Quarry

Community Liaison Group Meeting

Held at the Rolleston Quarry - Wards Road

Thursday 2 October 2014

Present: Jonny Francis (Road Metals), Murray Francis (Road Metals), Melissa Shearer (ECan), Simon Lock, Mark Alexander.

Apologies: Martin Crow, Wendy Gallagher, Clayton Fairbairn.

Meeting commenced at 7:30 pm.

Minutes from the previous meeting were confirmed as true and correct.

The planting out of the bund had been completed and the flag light would be installed sometime over the next few weeks.

The annual water balance had been submitted to ECan and this water balance showed a net effect of increasing the groundwater recharge, due to increased infiltration caused by stripping of the quarry surface, and due to discharge of water used on site back to ground.

An application for a variation to consent conditions related to traffic numbers, extraction volumes and hours of operation had been lodged with SDC and this application included a request to be publicly notified.

A variation to the ECan consent relating to volumes and hours had been lodged and granted.

A concrete batching plant would be installed at the quarry at some stage.

Simon tendered his resignation from the CLG because of the pending consent variation hearing. After some discussion among the group Simon was going to reconsider his decision and would advise the group in due course.

It was proposed that the next meeting would be held on site at the Rolleston Quarry on Wards Rd on November 20th at 7:30 pm.

Meeting declared closed at 8:21 pm.
