Lindsay showed a video of the RM4 area and explained what work had been undertaken. This included further rehabilitation in the area. Extraction was expected to be completed for RM4 in the next 2 years.

Dust data for the area was currently being uploaded to the Road Metals website on a monthly basis.

The residents had no specific complaints but had still noticed some noise at times.

Paul Tweed (CCC) had inspected the RM4 site recently with no issues reported.

The dust monitor would be shifted to the RM4B area soon.

The future plans for Road Metals next consent application (RM5) were discussed with the group.

It was proposed that the next meeting would be held on site at the Yaldhurst Quarry on 6 April 2023 at 6pm.

Meeting declared closed at 7:23 pm.
